DEVINSANTA

O QUE É HEXO.JS?

**É UM GERADOR DE PÁGINAS ESTÁTICAS CONSTRUÍDO EM
JAVASCRIPT (NODE.JS)**

PRA QUÊ SERVE?

**CONSTRUIR E PUBLICAR PEQUENOS SITES DE MANEIRA RÁPIDA,
ESCREVENDO EM MARKDOWN**

INSTALAÇÃO

INSTALE O GIT E O NODE

```
$ sudo apt-get install git  
$ sudo apt-get install node npm
```

INSTALE O HEXO.JS

```
$ [sudo] npm install -g hexo
```

INICIE O BLOG

```
$ mkdir blog
```

```
$ cd blog
```

```
$ hexo init
```

```
$ sudo npm install
```

```
$ hexo server
```

Hexo

2015-05-26

Hello World

Welcome to [Hexo](#)! This is your very first post. Check [documentation](#) for more info. If you get any problems when using Hexo, you can find the answer in [troubleshooting](#) or you can ask me on [GitHub](#).

Quick Start

Create a new post

```
1 $ hexo new "My New Post"
```

ARCHIVES

CONFIGURE A APARÊNCIA

MUDE O TEMA NO ARQUIVO `_Config.yml`

EDITE O CSS DO TEMA EM
`/theme/“nome-do-tema”/source/css`

POSTAGEM

CRIE SUA PRIMEIRA POSTAGEM

```
$ hexo new post "título"
```

O ARQUIVO VAI SER CRIADO EM BLOG/SOURCE/_POSTS

ESCREVA EM MARKDOWN

WINDOWS: MARKDOWNPAD
`(mas use linux)`

LINUX: HAROOPAD

MAC OS: MACDOWN

```
1 title: "a keime"
2 date: 2015-05-26 08:20:21

HOSPEDANDO NO GITHUB PAGES

CRIE UM REPOSITÓRIO COM O NOME “`seu-username.github.io`”

CLONE-O E MOVA OS ARQUIVOS DO BLOG PARA A PASTA

AJUSTE O ARQUIVO `_Config.yml`

HOSPEDANDO NO GITHUB PAGES

```
# Deployment
## Docs: http://hexo.io/docs/deployment.html
deploy:
  type: git
  repo: https://github.com/username/username.github.io.git
```

FINALMENTE PUBLIQUE

```
$ hexo generate  
$ hexo deploy
```
